Part II: Paper Testing Scripts

Overview

This section includes instructions and scripts detailing the procedures to be followed for students with accommodated test materials (paper). To ensure a consistent and accurate test administration, instructions **must** be read aloud to students at the beginning of the test. The instruction scripts are printed in bold type and enclosed in boxes. Directions for test administrators are printed in italic type.

Note: QSCS surveys will be included in the Braille and Large Print test booklets in 2022. There will be no need to key the survey answers in TestNav; the answers are to be transcribed into the student response booklet.

Note: Reminder to allow for students needing extended time when developing test schedule.

Completing Student Information-Accommodated Materials

Estimated Time: 10 minutes

Instructions below are to be used for students that will use an accommodated test materials kit (Braille and Large Print) to test.

1. School and district name can be written on board for students to copy.
2. Say to the students:

You are now preparing to begin the Grade 11 Spring 2022 Kentucky Summative Assessments (KSA) Test. IMPORTANT: On the front cover of the <u>test booklet</u>, please print your name at the top of the page where it says, "Student Name." On the lines provided below your name, please write your school and district name. When you are finished, set your test booklet aside.

3. The Student Response Booklets (SRBs), included in the accommodated kits, will not be pre-printed (SRBs will be blank, and the demographic information must be completed).
Say to the students:

It is very important that you print the information correctly. Listen carefully as I read the instructions. Raise your hand if you have any questions. Mark only the spaces I tell you to mark. Do not make any stray marks on your student response booklet. If you make a mistake, erase your marks completely and then fill in the correct information. In Box 1, "Student Information," print your name, school and district name as done on the student test booklet earlier.

4. Say to the students:

In Box 2, below "Student's Last Name" print the letters in your last name, one letter in each box, starting in the first box on the left. Do not leave any spaces between the letters in your last name. Then print the letters in your first name and middle initial in the appropriate boxes. If your name is longer than the number of spaces given, print as many letters as you can. <i>[Pause.]</i>

Now, under each letter you have written, fill in the bubble that contains the same letter. You should not fill in any bubbles under blank boxes.

When you have finished, check that the letters in your name have been bubbled correctly.

[Walk around to check that this is being done properly.]

Box 3 is labeled “Birth Date.” Fill in the bubble next to the month in which you were born. In the boxes under “Day,” write the two numbers for the date of the day you were born. If your birth date is a single number, put a zero in the first box and the number of your birth date in the second box. For example, if you were born on the 7th day of the month, you would enter zero in the first box and 7 in the second box under “Day.” Under each number you have entered, fill in the bubble with the same number.

In the first box under “Year,” write the first two digits of the year in which you were born.

[Pause.]

Then, in the second and third box, enter the last two digits of the year in which you were born. Under each number you have entered, fill in the bubble below with the same number.

Box 4 is labeled “Gender.” Darken the bubble for either “Male” or “Female” to indicate your gender.

[Pause.]

Box 5 will be filled out by the test administrator after booklets are handed in.

It is up to the test administrator to make note of students that need to have the “ACCOMMODATED MATERIALS” bubble gridded in after testing.

Before reading the information below for Box 6 the Test Administrator must write the room number on the board for the subject being tested. This is a four-digit field. If the room number is less than four digits, place zeros in front of the room number to make it four digits long. For example, if the student is taking a Reading test in Room 1, write Reading on the board with the room number 0001 below it.

Box 6 is labeled “Room Number Where Student is Tested”. Write the room number in the box for the subject being tested (Science, Social Studies, Editing and Mechanics, or On-Demand Writing) and then grid the numbers accordingly below.

Make sure all students are following this step.

Box 7 is labeled “SSID.” This may be filled out by the test administrator after the booklets are handed in.

Note: It is up to the test administrator to make note of students that need to have their SSID gridded in after testing.

Make sure students have correctly filled in their name, date of birth, gender, grade and that all bubbles are gridded before moving on.

Once you have completed filling out the room number, please turn your student response booklet to the back page. This page contains the Student Honor Code which reminds you to act honestly before, during and after testing. Test administrators are also required to sign a form stating that we will act in an honest and professional manner. Follow along silently as I read aloud the Kentucky Summative Assessments (KSA) Student Honor Code.

Below the statement there is a line, please sign your name.

Make sure all students are following this step.

Note: If a student is unwilling to sign the Student Honor Code, testing should not be delayed; document the incident and proceed with the test.

4. Record the start time and the end time where all students will be able to see them.
Say to the students:

You will have at least 90 minutes to do the required reading and answer the passage-based prompt in this session.

[At the discretion of the District Assessment Coordinator, schools may decide to allow groups or individual students to continue testing beyond the 90 minutes, provided they have been on-task during the initial testing period.]

5. Say to the students:

Please stop when you come to the STOP sign located on the bottom of page 109. During the test session, you may reread any selection or review your response to the passage-based prompt. Do NOT work on any other test parts, even if you have time remaining in the session.

Does anyone have any questions? *[Make sure students are on the correct page of their test booklet and student response booklet.]*

You may turn to page 105 and begin.

6. Circulate and monitor students' work during the test. When 15-minute and 5-minute time intervals remain, note this information on the board for all students to view.

After 90 minutes, if the students are no longer actively engaged, say to the students:

This completes the On-Demand Writing test. Please close your test booklet and student response booklet.

[If students are not engaged or progressing during testing, test administrators may instruct students to submit their test answers at the completion of the allotted time. It is not necessary for students to answer all questions prior to submitting final answers.]

7. Before collecting all test materials, verify that all students have written his or her name, school, and district name on the front cover of the test booklet. Store all test materials in a secure place.
8. Collect the scratch paper and follow the directions provided by the DAC or BAC for destroying it.

This is the end of the Grade 11 On-Demand Writing test.
